

Every morning, we begin with fresh dubu,  
made with time-honored Korean method and humble ingredients.  
At DubuHaus, care is at the heart of every dish.

DUBUHAUS

### First. Soaking

유기농 콩을 하룻밤 동안 불려  
맛과 영양을 끌어냅니다.

We start with carefully selected,  
non-GMO organic soybeans—soaked  
overnight to unlock their full flavor  
and nutritional value.

### Second. Grinding & Boiling

불린 콩을 곱게 갈아 끓여  
신선한 두유를 만듭니다.

The soaked beans are finely ground  
and gently boiled to produce rich,  
fresh soy milk.

### Third. Curdling

천연 응고제를 넣어  
부드럽게 몽글몽글 굳힙니다.

A natural coagulant is added  
to transform the soy milk into  
delicate curds—a crucial step in  
brining dubu to life.

### Last. Pressing

두유를 틀에 담아 눌러  
따뜻한 손두부로 완성합니다.

The curds are then gently  
pressed into warm, silky blocks  
of fresh dubu, ready to be  
served at their peak.
